The iconic design and performance of a La Marzocco comes home with the Linea Mini.

Inspired by the Linea Classic, the Linea Mini comes with dual boilers and an integrated brew group that allows the machine to achieve the temperature stability and energy efficiency of the saturated brew group in a reduced footprint. The Linea Mini is handmade with the same components used in our commercial machines to ensure the same durability that the Linea Classic has become famous for.

With PID and a temperature adjustment wheel, the Linea Mini provides all the features necessary to make the pursuit of the perfect espresso attainable at home.
North America Linea Mini Features and Specifications

Dual Boilers
Separate boilers optimize espresso brewing and steam production.

Integrated Group
A combined boiler and brew group achieve thermal stability in a reduced footprint.

Indicator Lights
Lights provide user feedback on heating and water level.

Hot Water Spout
Convenient spout for rinsing portafilter between shots.

Thermal Stability System
As water passes through each feature, temperature is further stabilized.

Internal Pump
Self contained pump without compromising performance.

Water Reservoir
A self-contained 2 liter water reservoir makes plumbing optional.

Barista Lights
LED lighting allows you to focus on your extraction and the cup.

PID Control
Stepped temperature wheel allows for user adjustment.

Colors
The Linea Mini comes in Stainless, Black, White, and Red color options to match your personal style.
